"I was one of the first patients treated at CTCA at Southeastern. It is really helpful to have the surgeon and radiation oncologist in the room at the same time discussing my treatment. The team has gone out of its way to provide the best care possible. The radiation team stayed late when I needed it, and everyone arranged their schedule around mine. My doctors took whatever time was needed to answer whatever questions Keisha, my wife, and I had about my treatment and recovery."

Rod Echols, Colorectal Cancer Patient; Fairburn, GA

"I joined CTCA to assist with bringing new and forward-thinking treatment options to cancer patients. What I think makes CTCA different is the commitment to care of the whole person. There is also a relentless desire to improve the care and treatment of cancer patients."

George William Daneker, Jr., MD
Chief of Staff, Chief of Surgery and Surgical Oncologist
Recognized by Atlanta Magazine as one of “Atlanta’s Top Doctors”

"Cancer Treatment Centers of America®
Winning the fight against cancer, every day*"
PROGRAM DESCRIPTION
This course will introduce the physician to cutting-edge technology in advanced bronchoscopy and management of pleural disease, offering a hands-on laboratory experience of these techniques. The program is designed for the practicing pulmonologist and affiliates interested in new diagnostic and therapeutic techniques for lung cancer, airway obstruction and management of recurrent pleural effusions.

This CME activity has been designed to change learner competency and performance. The course focuses on the American Board of Medical Specialties (ABMS) and the American Board of Internal Medicine (ABIM) Maintenance of Certification areas in medical knowledge, patient care and practice-based learning and improvement. Attendees will be given a pre- and post-conference test to measure learning outcomes.

OBJECTIVES
At the conclusion of this course, participants will:
- Increase their knowledge of endoscopic staging using endobronchial ultrasound-guided TBNA and electromagnetic navigation.
- Become familiar with the need and importance of new endoscopic techniques for early detection of lung cancer.
- Recognize the importance of a multi-disciplinary approach to patients with lung cancer.
- Learn therapeutic endoscopic techniques for patients with airway obstruction.
- Experience hands-on the semi-invasive techniques used in the management of recurrent pleural effusions.

Friday, April 15
11:15 am Shuttle to CTCA Medical Education Building
11:30 am Registration
11:45 - 12:00 pm Welcome and Opening Remarks
Ralph Barch, MD
12:00 - 12:20 pm Approach to Solitary Pulmonary Nodule
Wissam Jaber, MD
12:20 - 12:40 pm Lung Cancer Screening and Updates
Shabakhshir Esmi, MD
12:40 - 1:00 pm Novel Bronchoscopic Techniques
Gaetane Michaud, MD
1:00 - 1:20 pm - COFFEE BREAK
1:20 - 1:40 pm Medistical Anatomy and Landmarks for Endobronchial Ultrasound
Alex Chen, MD
1:40 - 2:00 pm Endobronchial Ultrasound (EBUS/EUS) and its Role in the Management of Patients with Mediastinal Adenopathy and Peripheral Lung Lesions
Angela Argenito, MD
2:00 - 2:40 pm The Role of Biopsy and Immunotherapy in the Management of Patients with Lung Cancer
Patricia Thompson, MD / Joana Bonta, MD
2:40 - 2:50 pm - BREAK
2:50 - 3:30 pm Pros and Cons: Surgery vs. Radiation Therapy in Management of Patients with Early Stage Lung Cancer
Daniel Miller, MD & Christian Hyde, MD
3:30 - 3:50 pm Endoscopic Lung Volume Reduction – Are We There Yet?
Momen Wahidi, MD
3:50 - 4:10 pm Billing and Coding
Timothy Udoski, MD
4:10 - 4:30 pm - BREAK
4:30 pm Shuttle Pickup at CTCA
5:15 - DINNER
The Banquet
1025 N Peachtree Pkwy
Peachtree City, GA 30269

Saturday, April 16
6:30 - 8:00 am - VENDOR SET UP
7:15 am Shuttle to CTCA Endoscopy Suites
7:30 - 8:00 am - BREAKFAST
8:00 - 3:00 pm Hands-on stations that include:
1. Endobronchial Ultrasound
2. Photak Catheter Placement
3. Percutaneous Tracheostomy
4. Foggy Bronchoscopy
5. Endobronchial Stenting
6. Bronchoscopic Peripheral Navigation Techniques
7. Bronchial Thermoplasty
8. Endobronchial Ablation Techniques
- Argon Plasma Coagulation
- Cryospray
- Cryotherapy
3:00 pm - Adjourn

TUITION
The tuition of $995 includes hands-on laboratories, 1/2 day of lectures, the course syllabus, refreshments, dinner Friday evening, breakfast Saturday, transportation from and to the conference and dinner, and other amenities involved in creating a rewarding learning experience. Register early! A maximum enrollment of 30 has been established. Written cancellations must be received on or before April 1, 2016 in order to receive a refund (less a $50 administrative fee). NO refunds will be given after April 1.

CREDITS
Morehouse School of Medicine designates this educational activity for a maximum of 11.5 AMA PRA Category 1 Credits.

Morehouse School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
